Daniel Crandall Reference Letter

To Whom it may Concern:

I joined Real Estate 1 in Redding about 4 months ago, in part because I needed some periodic help with computer instruction and business solutions for the real estate business.

I found Dan to be most helpful with problem solving with my computer, advertising, quality listing flyers, printing solutions, photo input to the Multiple Listing Service and more.

He was very courteous to people calling in response to home and land advertising and he directed calls to the appropriate agent available.

Dan was always very courteous to me and quick to come to my aid, especially in a state of some emergency.

Dan is cool headed under pressure and relaxes people with a little humor when necessary.

I certainly recommend Dan for many reasons but don't know all his talents.

I have been a real estate broker for over 35 years; you are free to call me with questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Barry Savage", written in dark ink.

Barry Savage
Broker/Associate
